“The non-Federal entity or applicant for a Federal award must disclose, in a timely manner, in writing to the Federal awarding agency or pass-through entity all violations of Federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the Federal award. Failure to make required disclosures can result in any of the remedies described in § 200.339.”
“If a non-Federal entity fails to comply with the U.S. Constitution, Federal statutes, regulations or the terms and conditions of a Federal award, the Federal awarding agency or pass-through entity may impose additional conditions, as described in § 200.208. If the Federal awarding agency or pass-through entity determines that noncompliance cannot be remedied by imposing additional conditions, the Federal awarding agency or pass-through entity may take one or more of the following actions, as appropriate in the circumstances”
§ 200.339 REMEDIES FOR NONCOMPLIANCE (CONT.)

a) Temporarily withhold cash payments pending correction of the deficiency by the non-Federal entity or more severe enforcement action by the Federal awarding agency or pass-through entity.

b) Disallow (that is, deny both use of funds and any applicable matching credit for) all or part of the cost of the activity or action not in compliance.

c) Wholly or partly suspend or terminate the Federal award.

d) Initiate suspension or debarment proceedings as authorized under 2 CFR part 180 and Federal awarding agency regulations (or in the case of a pass-through entity, recommend such a proceeding be initiated by a Federal awarding agency).

e) Withhold further Federal awards for the project or program.

f) Take other remedies that may be legally available.
“Corruption, embezzlement, fraud, these are all characteristics which exist everywhere. It is regrettably the way human nature functions, whether we like it or not. What successful economies do is keep it to a minimum.”

Alan Greenspan
Fraud is intentional or criminal deception or misrepresentation for financial or personal gain.

Major types of fraud include:

**MISREPRESENTATION**
- Providing false or misleading information with the intention to deceive or mislead others,
  **Examples:** procurement and accounting fraud

**FALSIFICATION**
- Alteration or fabrication of documents, records, or data to misrepresent the truth.
  **Examples:** Asset misappropriation and bribery

**CONCEALMENT**
- Intentionally hiding or suppressing information that should be disclosed.
  **Examples:** Corruption and cybercrime

Source: Association of Certified Fraud Examiners (ACFE) Reports to the Nations

Five types of frauds consistently reported:
- Asset misappropriation: 69%
- Procurement fraud: 29%
- Bribery & corruption: 27%
- Cybercrime: 24%
- Accounting fraud: 22%
By understanding and addressing these three components, individuals and organizations can implement preventive measures, enhance internal controls, and develop effective fraud detection strategies to minimize the risk of fraud and corruption.

1. **OPPORTUNITY**: access to resources or information enabling fraudulent acts without detection.

2. **RATIONALIZATION**: actions are justified as necessary or acceptable due to personal circumstances.

3. **PRESSURE**: significant pressures may compel individuals to engage in fraudulent activities.
