

**IntraHealth**  
INTERNATIONAL  
Because Health Workers Save Lives.

# SENEGAL

For two decades, IntraHealth International has collaborated with Senegal's government, health workers, and local stakeholders to strengthen the country's health system and bring high-quality health services to more communities. Years of investment have helped Senegal greatly reduce child mortality and malaria-related deaths, increase access to family planning, and stabilize a low incidence of HIV.

## Classroom to Care (C2C) (2022–2026)

**Funder:** Takeda Pharmaceutical Company Limited

IntraHealth works with 12 private schools in Mali, Senegal, and Niger to sustainably **increase the number of qualified, well-trained nurses and midwives** who can serve rural communities in these countries—all of which face a critical shortage of health workers.

IntraHealth helps four private schools in each country partner effectively with the public sector, achieve the appropriate accreditations, enhance competency-based curricula, create effective learning approaches, and graduate students from underserved areas.

## The Challenge Initiative (TCI) Next Gen (2021–2025)

**Funder:** Bill & Melinda Gates Foundation

IntraHealth leads TCI's francophone West Africa hub and is implementing the TCI model in urban areas in Burkina Faso, Côte d'Ivoire, and Senegal to **improve access to high-quality family planning services** for 5.5 million women of reproductive age and reach 350,000 additional family planning users.

The hub works with local governments in 29 areas to rapidly scale up a core package of **seven proven, high-impact interventions**. The hub also focuses on strengthening political and technical leadership and management and coordination of the local health systems in targeted cities and is paired with community accountability mechanisms to increase sustainability and program ownership.

Increased exclusive breastfeeding by 35%

Trained 300+ religious & traditional leaders & 400+ youth ambassadors in family planning advocacy

Trained 2,900+ health workers in pharmaceutical stock management & pharmacovigilance

## Momentum Safe Surgery, Family Planning and Obstetrics (2020–2025)

**Funder:** USAID Global Cooperative Agreement

As EngenderHealth's implementation partner in Senegal, [IntraHealth leads crosscutting technical assistance](#) for local organizational skills-building, sustainability frameworks, supply chain management, and human resources for health in Dakar and surrounding regions to:

- Scale up and sustain access to and use of evidence-based quality reproductive, maternal, newborn, and child health and family planning information, services, and interventions.
- Improve the capacity of host institutions, local organizations, and providers to deliver evidence-based, high-quality reproductive, maternal, newborn, and child health and voluntary family planning.
- Increase adaptive learning and use of evidence in reproductive, maternal, newborn, and child health and family planning programming through sustained host-country technical leadership.

## CARDIO4Dakar (2022–2024)

**Funder:** Novartis Foundation

In partnership with the Ministry of Health and Social Action in Senegal, IntraHealth is continuing to [improve hypertension care and management and address other cardiovascular risk factors](#) in Dakar by strengthening screening, diagnosis, and treatment services, as well as reinforcing data-management systems and digital health tools to accelerate early detection. IntraHealth advocates for reforms at a multisectoral level to improve population health through policy and create greater ownership of key public- and private-sector interventions.

## Integrated Client Centered RMNCAH/N Care in West Africa (INSPIRE) (2017–2023)

**Funder:** Bill & Melinda Gates Foundation

- Integrated postpartum family planning; maternal, newborn, and child health; and nutrition services into a **package of services delivered during the same client visit** in nine Ouagadougou Partnership countries.
- Established integration of technical working groups to implement the integrated service model in the nine Ouagadougou Partnership countries with representatives from Ministry of Health offices, professional associations, civil society, UNFPA, WHO, UNICEF, and other implementing partners.
- Supported a regional integration community of practice, led by the West African Health Organization, to provide technical assistance for scaling up integrated service delivery in all nine Ouagadougou Partnership countries.
- Increased immediate post-partum family planning by 97% using INSPIRE's integrated model of care.
